

# SOUNDPROOF CANOPY

For Diesel Generating Sets

## Features

The Soundproof canopy is a good canopy genset designed to supply customers power by lower noises and quality in a high-value package. All Soundproof canopies have all been designed and developed by our specialist acoustic engineers to reduce sound levels to make people enjoy lives. The Soundproof canopy is manufactured with a steel outer skin, and is lined with fire proof, acoustic material. Attenuators are placed on the hot air outlet and cooling air inlet and exhaust silencers of the residential type are mounted either on top of, or inside the enclosure, exhausting to atmosphere.

## Robust/Highly Corrosion Resistant Construction

Body made from steel components treated with polyester powder coating  
Black finish stainless steel locks and hinges. Zinc plated or stainless steel fasteners  
Excellent Access for operation and Maintenance

Two large doors on each side, convenient to install, watch, operation or maintenance.

On door or other appropriate place set watching window to watch the panel of controller.

Lube oil and cooling water drains piped to exterior of the enclosure, Simply, convenient operation, not need building generator room, using at the open air  
Setting silencer, on reaching destination, generator can work at any moment.

## Security and Safety

favorable aeration system and radiation-proof frame, high-powered shock absorption system, assure generator running reposefully  
Exhaust silencing system totally enclosed for operator safety. Fuel fill and battery can only be reached via lockable access doors  
Emergency stop push button (red) mounted on enclosure exterior

## Lower noise and lower exhaust

Setting exhaust, container vent-pipe is circumference pipeline, ensure input or output air smoothly

Setting silencer, adopt late-model professional anechoic material, Running quiet, noise under 75db, no influence daily live

Soundproof Type No. C20

Soundproof Type No. C21

Soundproof Type No. C13

Trailer Type No. C30
